PART TWO

HISTORICAL STATEMENT

Alabama College was established as the Alabama Girls Industrial School through a bill introduced in the State Senate in 1892 by Sol D. Bloch, of Camden. Steered through the House by John W. McQueen, of Birmingham, the bill was passed the following year. On January 1, 1896, the institution was located at Montevallo because of the town's location near the geographical center of the state, its healthful surroundings, and a substantial gift of cash and property by its citizens.

The School opened its doors on October 12, 1896 with Captain Henry Clay Reynolds, of Montevallo, as president, a faculty of six, and a student enrollment of one hundred forty-five. The only physical equipment was Reynolds Hall, a red brick building erected in 1851, which remains today one of the stateliest buildings on the Montevallo campus.

In 1911 the name of the institution was changed to Alabama Girls Technical Institute, and in 1919 to Alabama Technical Institute and College for Women. On September 9, 1923, the present name was adopted.

Management of the College from the beginning has been vested in a Board of Trustees composed of the Governor, who is its president, the State Superintendent of Education, and eleven members appointed by the Governor, one from each of the nine Congressional Districts and two from the State-at-Large.

During the forty-one years since its opening the College has had five presidents. The first, Captain Reynolds, had been a lieutenant in the Confederate Army, and at the time of his election was a merchant and planter. In 1899 he was succeeded by Dr. Francis Marion Peterson, Professor of Ancient Languages at Southern University, Greensboro (now Birmingham-Southern). The third president, Dr. Thomas Waverly Palmer, before coming to Montevallo in 1907 had been Dean, and Professor of Mathematics at the University of Alabama. In 1926 Dr. O. C. Carmichael, Dean of Alabama College since 1922, became the fourth president. He was succeeded in 1935 by Dr. Arthur Fort Harman, former State Superintendent of Education of Alabama.

By phenomenal growth, Alabama College has developed from its beginning as a girls' school with a curriculum covering high school subjects, special work in commercial courses, normal training, music, and domestic arts, to a standard liberal arts college granting the Bachelor of Arts, Bachelor of Science, and Bachelor of Music degrees.

Alabama College in 1925 was admitted to membership in the Southern Association of Colleges and Secondary Schools, and in 1928 to the Association of American Colleges. In 1931 it was approved by the American Association of University Women, and in the same year the School of Music was accredited by the National Association of Schools of Music. The College was placed on the approved list of the Association of American Universities and was granted membership in the American Council on Education and the Southern University Conference in 1935. It is also a member of the Association of Alabama Colleges.

The College will open on September 7, 1938, for the forty-third annual session.

THE LOCATION

Located in Montevallo, a picturesque village near the exact center of the state, Alabama College is accessible by railroads and improved highways. Students may come direct to the Montevallo station on the Southern Railroad line extending from Rome, Georgia, to Meridian, Mississippi; or by taxi from Calera seven miles away on the main line of the Louisville and Nashville; or to Wilton, two miles distant on the Southern line between Birmingham and Mobile.

To the east, Montevallo is connected by seven miles of paved road with Calera on the Montgomery-Birmingham Highway No. 31. Improved Highway No. 25 leads to Centerville, connecting with highways serving the western part of the state. A recently improved short route to Siluria brings the College within 35 miles of Birmingham.

BUILDINGS AND GROUNDS

The College grounds consist of 106 acres. These include the land on which the training schools are located, which was given to the College by the Town of Montevallo. In recent years all main streets and walks have been paved. The addition of shrubbery, flowers and year-round green lawns has made of the campus one of the beauty spots of Alabama.

An out-door theatre is being constructed in the natural cup just below and to the west of Flower Hill. To the broad playing field of the upper campus, devoted to archery, baseball, hockey, soccer and other sports, is now added a still larger field in the valley below. Eight well-conditioned tennis courts are at the disposal of students.

THOMAS WAVERLY PALMER HALL, which bears the name of the third president of the College, was opened in 1930. It contains administration offices, an auditorium seating approximately sixteen hundred, excellent stage facilities and one of the great institutional pipe organs of the South.

BLOCH HALL is named in honor of Sol D. Bloch, of Camden, Alabama, who was author of the bill establishing the College and who served continuously on the Board of Trustees from its organization until 1919. The building, which was opened in 1915, contains class rooms, departmental offices, and laboratories.

REYNOLDS HALL was erected in 1851, the lot having been donated by Edmund King. It is named for Captain H. C. Reynolds, the first president of the College. In front of this building men from the vicinity were mustered into service for the War Between the States, a regiment receiving here the flag made by the women of Montevallo. It was first the home of the Montevallo Male Institute and was converted by the Cumberland Presbyterians into a high grade school for women. It now contains class rooms, an auditorium, offices, gymnasium, supply store, and the College post office.

CALKINS HALL, completed in 1917, is named in memory of the late Charles Rendell Calkins, director of music from 1913 to 1920. It contains the office of the director of the School of Music, class rooms, studios, practice rooms, and a recital hall.

THE LIBRARY, which was dedicated in 1923, contains the librarian's office, cataloguing rooms, a stack room, and a reading room with seating capacity of 150. Other reading rooms are on the second floor where current newspapers and periodicals, bound volumes of magazines and newspapers, and special book collections are available. The library has 36,000 accessioned volumes. The collection is classified by the Dewey Decimal System and is catalogued by author, title and subject matter. The library receives 237 periodicals, the greater number of which are indexed in The Art Index, The Readers Guide, Education Index or The International Index. With the exception of a few special collections, books may be drawn for two weeks by faculty, officers, and students. Volumes devoted exclusively to one department, however, may be drawn for an entire semester by a professor for use in the work of that department. The library is open during the regular session from 8 A. M. to 9:30 P. M., from Mondays through Fridays; from 8:30 A. M. to 5 P. M. on Saturdays; from 12:30 P. M. to 1 P. M. on Sundays.

MAIN DORMITORY comprises three distinct units, connected by cross halls. The three wings are named for distinguished teachers who served the institution for many years. The east wing is known as Mary Goode Stallworth Hall; the central wing as Annie Kennedy Hall; the west wing as Elizabeth Haley Hall. The dormitory contains parlors, reception halls, dining halls and rooms for approximately four hundred fifty students.

RAMSAY HALL is named for Mrs. Janet Erskine Ramsay, the mother of Mr. Erskine Ramsay, of Birmingham, who gave \$100,000 toward the

erection of the building. It was occupied first in 1925 and accommodates approximately one hundred twenty students.

HANSON HALL is named for Mrs. Weenona Hanson, the late wife of Mr. Victor Hanson, publisher of The Birmingham News-Age-Herald, who contributed substantially toward its erection in 1929. It accommodates approximately one hundred ninety students.

PETERSON HALL, the College Infirmary, is named in honor of the second president of the College, Dr. Francis Marion Peterson.

KING HOUSE, erected in 1823, is used for offices of the student counselor and members of the Psychology Department.

STORRS'S RESIDENCE has been remodeled and moved from the southeast corner of the campus to a central location, where it is used by the Home Economics Department of the training school.

THE PRESIDENT'S HOUSE, of colonial architecture, was erected in 1926 at the highest point on the northern end of the campus.

TRAINING SCHOOL BUILDINGS

THE JUNIOR AND SENIOR HIGH SCHOOLS were transferred in 1929 from Reynolds Hall on the College campus to a new training school building, erected through the cooperation of the County Board of Education, the State Board of Education, and the College. It contains office and class rooms, housing all high school work except that in home economics.

THE ELEMENTARY TRAINING SCHOOL building, constructed by the Town of Montevallo and used for a number of years as a practice school, was deeded to the College in 1928. It contains class rooms, offices, a cafeteria, and a small auditorium.

OTHER FACILITIES

WAPI BROADCASTING STATION is jointly owned by Alabama Polytechnic Institute, the University of Alabama and Alabama College. By remote control from Palmer Hall, the College presents weekly radio programs, in which officers, faculty and students participate.

THE SUPPLY STORE is maintained in Reynolds Hall for the convenience of students. It is connected with the College post office, where mail is delivered twice daily.

THE POWER HOUSE supplies ample heat and light to all campus buildings. The construction of a new boiler plant in 1936 was an important addition to College facilities.

THE LAUNDRY, adjacent to the Power House, serves students, staff and departments of the College.

THE DAIRY FARM contains approximately two hundred acres, eighty-five of which are under cultivation. The herd consists of over one hundred registered and grade Jersey and Holstein cattle.

THE WATER SUPPLY of the College is declared by health authorities to be excellent. Spring water is purified by a filtration plant completed in 1936. The supply serves for fire protection as well as for the needs of all campus buildings. Within the buildings are chemical fire extinguishers and fire hose, and outside there are plugs to which fire hose may be attached. Fire hose carts, each containing five hundred feet of hose, are conveniently located so that several streams of water can be concentrated at any point. Two fire drills are held each month.

LABORATORIES

BIOLOGY

Laboratories of the Department of Biology occupy four rooms in Bloch Hall. Three of these rooms are equipped with special facilities and supplies for courses in general biology, zoology, botany, histology, and physiology, such as compound microscopes, dissecting lenses, mounted slides, microtomes, paraffin oven, field glasses for the study of birds, charts, models, skeletons, plant and animal specimens, balopticon, and moving picture machine. The fourth room has been designed especially for laboratory courses in general and pathogenic bacteriology. It contains sterilizers, incubators, autoclaves, hot air oven, Wasserman bath, steel lockers, and oil immersion microscopes. A green house for the use of the department adjoins the laboratories.

PHYSICAL SCIENCE

Laboratories of the Physical Science Department are located in the basement of Bloch Hall, occupying seven rooms in the northeast end of this building. Each laboratory is equipped with standard furniture consisting of Alberlene stone-top desks and side shelves for reagents. Hoods are supplied in the general and quantitative laboratories. A lecture room, accommodating forty-eight students, a stock room, and office space for instructors are also provided.

HOME ECONOMICS

On the third floor of Bloch Hall are two food preparation laboratories one of which is arranged on unit kitchen plan with different types of equipment in each kitchen. A kitchenette, store room, and dining room are adjacent to this laboratory. The reading room, with current periodicals relating to foods and institutional management, is on the same floor. Here, too, is the equipment laboratory with facilities for testing various household electrical equipment. Other work in household equipment, such as learning how to refinish furniture and make simple repairs, is carried on in this laboratory.

Clothing laboratories are on the second floor of Bloch Hall. Folding doors between them may be opened to provide an auditorium capable of seating 200 people. The equipment of the laboratories includes various types of sewing machines and a Scott tensile strength testing machine. Adjacent to the laboratory is a student reading room with current periodicals relating to clothing and retailing.

The nursery school is housed in a two-story frame dwelling. It has a play room, dining room, kitchen, screen porch, bathroom, two sleeping rooms, reception hall, and a reading room for parents. The back yard is large and provides ample play space for sand pile, jungle gym, slide, swings, tree house, and garden activities.

The College has two home management houses. The one in Montevallo is an eight-room cottage-type house, with room for six girls and a director. The house in Columbiana is a two-story colonial, providing residence for eight girls and a director. Both houses serve as laboratories for senior students in home management.

GOVERNMENT AND STUDENT WELFARE

GENERAL REGULATIONS

Young women attending the College are accorded every privilege consistent with their welfare and opportunities, but the College, deeply conscious of its obligations to their parents and guardians as well as to the State, makes every effort to keep constantly in the minds of students the importance of maintaining high moral and social standards.

The Student Government Association, subject to approval by the College authorities, adopts such regulations as are needed for social life on the campus, and all students are expected to cooperate with the Executive Board and Student Senate in their observance. On registration, new students are given copies of the Students' Handbook which contains these regulations.

Students are not allowed to remain in Montevallo after Commencement or after the beginning of holidays unless written requests are received by the Dean of Residence from their parents or guardians. A student wishing to visit at a local home must secure, in addition to this permission, an invitation from the head of the family at whose home she is to visit.

No student, whether rooming in a dormitory or in a private home, is allowed to have an automobile for her use during the session.

Each student is expected to keep her room in order. Students may entertain guests in the dormitories for as many as three consecutive days by registering their names at the office in Main Dormitory and arranging with the Food Supervisor for their meals.

HEALTH

Peterson Hall, the campus infirmary with thirty-six beds, is maintained exclusively for the care of students in all medical cases. It is deemed best to send surgical cases off the campus. A full-time physician and two nurses have charge of this department and live in the infirmary.

During the first weeks of each session the Medical Department in conjunction with the Health and Physical Education Department gives every student a medical and physical examination. On the result of this examination depends the class of activity which the student may elect, varying from a daily rest hour at the infirmary to the most vigorous physical exercise on the playing fields.

Members of the faculty are instructed to report to the resident physician any students who need advice concerning their health. All students unable to attend classes are required to report to the infirmary.

This insures prompt care for those who need it and safeguards other students.

RELIGIOUS LIFE

Although the College is non-sectarian, its students find on the campus and in the town of Montevallo excellent religious influences. In addition to the College Young Women's Christian Association, there are a number of organized church groups in Montevallo with which students may find congenial Christian fellowship and opportunities for training in religious leadership. Four churches—Baptist, Episcopal, Methodist, and Presbyterian—welcome students to join in their religious life. Catholic students hold a service every Sunday morning, and once a month are visited by a Priest who holds Mass in a local home. Students of the College are encouraged to attend regularly the church of their choice.

CONCERTS, LECTURES, AND PLAYS

Each year distinguished speakers, lecturers, and artists appear before the students and faculty in Palmer Auditorium. Many of these programs are part of the annual Concert and Lecture Course; others are arranged for the weekly convocations, and for special occasions of the College and of the civic organizations of Montevallo. These attractions are in addition to the plays, concerts, and lectures by theatre groups, music and dance groups, and individuals within the College. Among the visiting individuals and groups appearing at Alabama College during the 1937-1938 session were the following:

FEDERATION OF WOMEN'S CLUBS SCHOLARSHIPS.

The Alabama Federation of Women's Clubs, at its third annual meeting in 1897 at Anniston, Alabama began its active work for the College. At the suggestion of Mrs. James L. McConaughy, of the Montevallo Studiosis, the Federation through some of the individual clubs established the Studiosis Loan Collection of books as a nucleus for the institution's library and also contributed to a scholarship fund.

In 1898 the Federation established the Kate Morizette Scholarship, and in 1909 the Conra McConaughy Scholarship. In 1911 the Federation received a gift of \$100 from Miss Francilla Romah Haley, of Jasper, to establish the Elizabeth Haley Moore Scholarship. In 1916 she increased this fund to \$225. Other scholarships have been established as memorials to Kate Hagan, Mary Hill Randle, Marie Pearce, Minnie Holman Phillips and Bessie Baker.

All of these scholarships are not granted annually but the Federation has offered scholarships totaling several hundred dollars each year.

These scholarships constitute a revolving fund for educational purposes only and cannot be used for personal expenses. Interest at the rate of

four per cent is charged, beginning one year after the graduation or withdrawal of the beneficiaries. A note for the sum borrowed is required in duplicate, one copy for the College and the other for the Federation.

Applications should each be endorsed by two prominent local citizens and the superintendent of the school last attended. Applicants must be Alabama residents of high character and creditable scholarship. They must be qualified for the junior or senior college class.

In addition to the Federation Scholarships, which have a maximum value of \$200 each, Alabama club women maintain several other scholarships which are not subject to the above regulations since they are given by club districts, counties, or individual clubs. She was at one time associate librarian at the College and in 1932 was elected president of the Woman's Auxiliary to the State Medical Association.

MYRTLE BROOKE SCHOLARSHIP.

Through a revolving fund of \$250 the first group of students in social work at the College established this scholarship in that field of study. It is an expression of appreciation of the contribution to the development of scientific social work in Alabama by Miss Myrtle Brooke through her service in establishing social work at the College. The scholarship thus pays tribute to the pioneer spirit of a teacher who is loved and admired, and commemorates the first training course for social workers in the State.

Mrs. Maud Preuit Fennel, of Leighton, through Mr. C. M. Mauldin as trustee of the fund, granted \$1,000 for the establishment of the Opportunity Scholarship Fund for the assistance of juniors and seniors. The maximum for any holder is \$200 a year. In appreciation of the patronage of the College and its scholarship needs, he has made several additional contributions to the fund, which is intended to aid students who have completed one or more years in college. In the desire to distribute the assistance, preference is shown those needing small loans. No funds will be available in 1938-1939.

SPECIAL SCHOLARSHIP.

The Sunday School Class of Mrs. T. H. Napier in Montevallo over a period of five years raised the funds to establish this scholarship of \$100, offered first in the 1930-1931 session and open to seniors.

REQUIREMENTS FOR ADMISSION

1. **ADMISSION BY CERTIFICATE FROM AN ACCREDITED SCHOOL.** An applicant for admission to the freshman class must present a certificate of graduation from a standard accredited high school, or a certificate showing credit for fifteen acceptable units earned during a period of four years of attendance in high school, or high school and summer school combined; or a certificate showing twelve units from an accredited senior high school.

If the certificate for fifteen units shows credit for only three years of attendance, the applicant must take entrance examinations on three units of work in fourth year high school subjects. If the certificate shows credit for three and one-half years of attendance, she must take an entrance examination on one unit's work in a fourth year high school subject.

2. **ADMISSION BY CERTIFICATE AND EXAMINATION.** An applicant from a non-accredited high school who presents a certificate covering the work required for admission may be exempt from a part of the entrance examination provided the general character of the school attended, in the judgment of the admission committee, justifies such exemption. In such cases examinations are required in one unit of rhetoric and composition, one unit of English classics, one unit of history of literature, one unit of algebra, one unit of geometry, and one unit of history.

3. **ADMISSION BY EXAMINATION.** An applicant who does not present a satisfactory certificate is required to pass examination on fifteen units of high school work, including the prescribed subjects. This plan has been arranged for the benefit of mature students who have advanced credit and who wish to meet entrance requirements and become eligible for degrees.

Examinations for admission for the 1938-1939 session will begin on September 7 at 2 P.M. Application for these examinations must be made to the Dean ten days before the opening of the session and the examinations must be completed before registration of the student.

SPECIAL STUDENTS. Applicants twenty years of age or over who desire to pursue special courses may be admitted without formal examination, but must give evidence of adequate preparation to the instruction committee and to the heads of departments in which courses are sought.

Special students cannot become candidates for degrees or certificates until all requirements for entrance have been met, and in no case will such special courses lead to certificates or degrees.

In order for a special student to room in a dormitory she must take at least fourteen hours of work, six or more of which must be in academic subjects, and must conform to all regulations governing other students.

ADVANCED STANDING. A student may be admitted to advanced standing by presenting credits from an approved institution of college or university rank.

PRESCRIBED SUBJECTS. Of the fifteen units of high school work required, the following are prescribed: English—three units; *mathematics—two units; history—one unit.

The remaining units may be selected from the other subjects acceptable for admission provided not more than four units are offered in vocational subjects.

Maximum values in units for subjects are as follows:

English	4	Chemistry	1
Modern Languages	2	Home Economics	4
Latin	4	Physical Education	1/2
Plane Geometry	1	Music	2
Solid Geometry	1/2	Art	1
Trigonometry	1/2	Commercial Subjects	
History and Civics	4	Business Arithmetic	1
Economics	1	Business English	1
Sociology	1	Commercial Geography	1
General Science	1	Shorthand	1
Biology	1	Bookkeeping	1
Physics	1	Typewriting	1

*A graduate of a standard high school may be admitted without plane geometry but must secure credit in this subject before beginning college mathematics.

REGISTRATION

GENERAL INFORMATION

Freshmen will begin registering at 8 a.m. Wednesday, September 7.

Upper-classmen will begin registering at 2 p.m. Wednesday, September 7.

Students must complete their enrollment at the Bursar's office by September 13 for the first semester and by January 27 for the second semester, or pay the late registration fee of \$2.

FRESHMAN ORIENTATION

In order to assist freshmen in adjusting to the college environment, a definite orientation program is arranged. On registration day, September 7, members of the freshman class will be given a program which they will follow in having their schedules arranged. The plan will include library lectures, special lectures by members of the administration, physical and medical examinations and general ability and diagnostic tests. The Student Government Association will give instruction in student regulations and student tradition, and various campus groups will arrange social gatherings to give opportunity for freshmen to get acquainted.

ADMISSION AND ROOM RESERVATION

Those desiring to enter the College for the following session should fill out the Admission Blank on the last page of this catalog and mail it to the President's Office. The Registrar of the College then will send the applicant a certificate of recommendation to be filled out by her high school principal. He will be expected to return this certificate directly to the Registrar of Alabama College.

With the application the sum of \$2.50 should be enclosed for the reservation of a room. Upon registration, this amount will be credited on the student's account. Should the applicant be unable to attend, the \$2.50 will be refunded only if the College is notified before August 15. For the reservation to be held the student must report at the opening of the session or send by telegram or letter a satisfactory reason for reporting late. Since the three residence halls can accommodate only about 760 students, and each year are filled to capacity, reservations should be made as early as possible.

After reserving a room an applicant who is unable to attend is not permitted to transfer her reservation to another. Rooms are assigned in order of application and usually with one or two roommates, the College authorities reserving the right to change rooms or roommates at any time. New students accepted for admission will be instructed by the Rooming Secretary as to room supplies which they should bring.

ACADEMIC REGULATIONS

SEMESTER SYSTEM

The semester system, based on the division of the academic year into two semesters of eighteen weeks each and a summer school of eleven weeks, is used. A student may enter at the beginning of any semester, and resident study during any two semesters or three summer schools is the equivalent of one academic year.

UNIT OF CREDIT

The unit of credit is the semester-hour, each representing one hour of recitation with two hours of preparation a week for a period of eighteen weeks. As a rule two hours of laboratory work count as one hour of class.

SCHEDULE OF WORK

The regular amount of work for a student is sixteen hours a semester in addition to physical education. No student will be allowed to take more than eighteen hours of work unless she has an average of B for the previous semester, the consent of the College Physician, the head of the department in which she has a major, and the Dean.

CONDITION EXAMINATIONS

Condition examinations for the first semester will be given October 22, 1938. Applications for these examinations must be in the office of the Dean before October 8, 1938. Condition examinations for the second semester will be given March 11, 1939. Applications for these examinations must be in the office of the Dean before February 26, 1939.

RECORDS AND GRADES

Final grades for each semester are recorded and preserved. Reports are submitted in duplicate, to students and to their parents or guardians at mid-semester and at the close of the semester. These grades represent the professors' estimate of recitation, laboratory work, written work and final examinations. The grades are indicated as follows: A—Excellent; B—Good; C—Average; D—Passing; E—Conditional; F—Failure; I—Incomplete.

A course on which a grade of F is received must be repeated in class. In order to receive credit for a course in which a grade of E or I is received, the E must be removed by taking the condition examination and the I

by completing the work during the next semester the student is in attendance. The passing grade regularly is D, but juniors and seniors electing freshman and sophomore subjects must make C.

Students who are absent more than one-sixth of the total number of classes during the semester are not allowed to take final examinations, except by special permission of the Dean, but are required to repeat the work.

TRANSCRIPTS OF RECORDS

Graduates and other former students may secure transcripts of their records at the College from the Registrar. Each will be furnished one complete transcript free, a charge of \$1 being made for additional copies.

COURSE NUMBERS

The system of course numbers is as follows:

When the numbers of a course are separated by a hyphen, the work of both semesters must be completed before credit will be granted for the course. When the numbers are separated by a comma, credit will be granted for each semester's work.

Freshman courses extending through both semesters are numbered 101-2, 111-2, 121-2, 131-2, and 141-2. One-semester courses are numbered 151, 152; 161, 162; 171, 172; 181, 182; and 191, 192. One-semester courses repeated during the year are numbered 100, 110, 120, 130, 140, 150, 160, 170, 180, and 190.

Sophomore, junior and senior courses extending through the year are numbered 201 to 242, 301 to 342, and 401 to 442, respectively. One-semester courses are numbered 251 to 292, 351 to 392, and 451 to 492, respectively. Those courses repeated during the year are numbered in multiples of ten as follows: sophomore courses from 200 to 290; junior courses from 300 to 390; senior courses from 400 to 490.

The first number represents the class and the last number the semester, with the exception that courses numbered in multiples of ten may be offered either the first or second semester.

The decimal point indicates that credit in Education is given for courses in other departments. The number after the decimal point designates the accredited department as follows:

- | | |
|---------------------|-------------------------|
| .1 Art | .6 Music |
| .2 English | .7 Physical Education |
| .3 Foreign Language | .8 Science |
| .4 History | .9 Speech |
| .5 Mathematics | .10 Secretarial Science |

SCHOLARSHIP REQUIREMENTS

Credits and grade points are earned and recorded on the following basis:

A—Excellent.....	3 grade points per hour
B—Good.....	2 grade points per hour
C—Average.....	1 grade point per hour
D—Passing.....	0 grade points
E—Conditional.....	0 grade points
F—Failure.....	0 grade points
I—Incomplete.....	0 grade points

Grade points for credits transferred from other institutions are granted on the basis of the first semester's work at Alabama College.

HONORS

A student who completes the work for a degree with as many as 2.5 grade points for each hour is graduated with highest honors and this is cited with the degree.

A student who completes the work for a degree with as many as 2.0 grade points for each hour is graduated with honors and this is cited with the degree.

PROBATION AND DISMISSAL

A student whose general average is below D at the end of the first semester may be required to withdraw or may be placed on probation.

If a student has taken thirty-four semester hours of work, regardless of whether she has passed it, and her record is twenty-five below the standard number of grade points, or one grade point for each hour, she is subject to enforced withdrawal at the end of the second or any subsequent semester.

In line with its policy to enroll students who seek diligently to maintain high standards of scholarship and conduct, the College reserves the right to request the withdrawal of any student whose general work, conduct and attitude show that she is not conforming to the standards and ideals of the institution. In such cases formal and specific charges are not necessary.

ELIGIBILITY TO REPRESENT COLLEGE

A student must have passed all of her courses during the semester immediately preceding and must have a satisfactory conduct record in order to be eligible to represent any organization of the College in public performance off the campus.

CLASSIFICATION

Fifteen units of high school credit must be presented by an applicant in order to qualify for the freshman class.

Twenty-seven semester hours of college credit and twenty-seven grade points are required for rank as a sophomore.

Sixty semester hours of college credit and sixty grade points are required for rank as a junior.

Ninety-four semester hours of college credit and ninety-four grade points are required for rank as a senior.

A student entering with one of the above rankings may be promoted to a higher ranking at the end of any semester provided she has the total number of hours and grade points required for the completion of the year from which she is to be promoted.

ABSENCES

Permission to be absent from the College will be granted only on written request from parents or guardians. Absences are not recognized as relieving the students of responsibility for work missed, but in cases of enforced absence, such as on account of personal illness, the privilege of making up the work missed is granted. Students who are absent voluntarily receive deductions in class grades by their instructors.

CHANGES IN COURSES

All changes in course of study must be approved by the Dean and are not allowed after the third week from the beginning of a semester. Exceptions may be made on recommendation of the College Physician or the head of the department in which the student is majoring. Any student who attends a class which is not listed on the Registrar's card and without the permission of the Dean will receive no credit for such work.

REQUIREMENTS FOR GRADUATION

(For requirements for specific degrees see page 50)

8. The responsibility for meeting the requirements for a degree rests on the student.
9. A formal application for a degree must be filed in the Registrar's office before the beginning of the last semester and preferably one year in advance of the date on which the degree is to be conferred.

CURRICULA

For some time committees of the faculty have been making a study of the Curricula of the College and have made changes and suggested methods of reorganization in order to modernize all departments, giving consideration to both concentration and distribution. The reorganization includes a grouping of the departments into the following divisions as a basis for further study:

- I. FINE AND PRACTICAL ARTS, including art, home economics, music, physical education, and secretarial science.
- II. LANGUAGE AND LITERATURE, including English, foreign language, and speech.
- III. SCIENCE AND MATHEMATICS, including biology, physical science, and mathematics.
- IV. SOCIAL SCIENCE, including education; history, political science and geography; psychology and philosophy; religious education; and sociology and economics.

GENERAL PRINCIPLES UNDERLYING CHANGES

The changes in the curricula are being made in the light of certain fundamental principles in present day education, embracing the belief that the first two years of college work should be devoted largely, but not exclusively, to general or liberal education and the last two years mainly to the fields of concentration. This general or liberal education should acquaint the student with each of four or five broad fields; should aid in the acquisition of certain effective mental tools; should assist in adaptations to contemporary problems that are faced; and the work in its entirety should be directed toward establishing certain groups of attitudes and providing certain experiences rather than toward the mere acquisition of facts.

The committees have not completed the work of revision but they have announced tentative plans for the freshman and sophomore years. This general plan includes the following:

The curriculum in preparing teachers for the elementary schools includes a course in administration and supervision. This work is provided through arrangements with the Shelby County Board of Education whereby the Department of Education supervises a group of county schools in the vicinity of the College. This procedure serves the County in supervision for its teachers, and the College in training elementary principals. Under a similar arrangement with the County Board of Education, a member of the Department of Education supervises the high schools of the county. This arrangement permits students who are preparing for high school teaching to supplement their work in the Training School by observation in other high schools of the county.

CURRICULA FOR TRAINING TEACHERS

Bachelor of Arts Degree With Training For Teaching In The Elementary Schools.

The College offers a curriculum leading to the Bachelor of Arts Degree with special preparation for teaching in the elementary schools. There is an increasing demand for teachers in the grades with four years of such training as is provided by this curriculum.

Bachelor of Arts and Bachelor of Science Degrees With Training for Teaching in the Secondary Schools.

Students desiring to teach in the secondary schools should follow these curricula and should choose their major and minor subjects by the end of their sophomore years. Since there are a number of electives in each curriculum, prospective teachers should select courses with a view to strengthening their teaching qualifications in their chosen fields.

TRAINING SCHOOLS FOR TEACHERS

The College has a cooperative arrangement with the County Board of Education whereby the Montevallo Elementary, Junior High, and Senior High Schools serve as training schools for the Department of Education. A Kindergarten is a part of the elementary school. The State Course of Study and the State Adopted Textbooks are used in the training schools. The High School is accredited by both the State Department of Education and the Southern Association of Colleges and Secondary Schools. In each grade an experienced teacher is in charge of the practice teaching. The training schools offer observation, participation and teaching facilities for those preparing for elementary and secondary teaching and for teaching in such special fields as art, home economics, piano, public school music, violin, secretarial science, speech, and physical education. Only members of the College senior class are assigned to teaching in the training schools.

The course in methods should precede a student's teaching in the elementary school, but may be taken parallel. The course in methods of teaching a student's major and minor subjects should precede a student's teaching these subjects in high school, but may be taken parallel.

SPECIAL SERVICES

Extension Service. Among the services of the College conducted through the Education Department is the Extension Service, directed by Dr. M. L. Orr. At various centers over the state, extension courses are offered to teachers, club women, and others when requested by groups of sufficient size. Under certain conditions these courses carry college credit.

Upon request the Director of Extension will arrange for members of the regular faculty to render service as lecturers or musicians in various parts of the state.

Two field workers in parent education are on the staff of the School of Home Economics. They conduct study courses in child training and parent education in numbers of centers in Alabama.

Home Study Service. Alabama College Home Study Service, directed by Dr. J. I. Riddle, offers to the women's study clubs of the state, program outlines covering a year's work in some fifty or sixty fields. Along with the use of these outlines goes the loan of selected books, magazines, and reference works. This service is given without charge other than for postage on materials sent out. The various programs and readings available are described in a special bulletin sent upon request.

The Home Study office has also special outlines and programs which are of interest to parents and teachers. These programs cover aspects of child life, family life, and the relation between home and school. Many papers and articles by authorities in this field are available for use. Materials available for P.-T. A. groups are described in a special bulletin sent upon request.

For the benefit of those who cannot study on the campus, Alabama College through Home Study Service offers regular college credit courses by correspondence. These courses cover the same material and carry the same credit as if done in residence. A special bulletin describing correspondence courses is available on request.

Placement Bureau. The Placement Bureau, directed by Professor A. C. Anderson, serves students and former students of Alabama College without charge. Although the Placement Bureau concerns itself chiefly with supplying teachers to the schools of the state, it also collects information about those of its graduates who may be interested in other kinds of positions and furnishes this information to prospective employers upon request. Confidential information about each prospective employee is carefully collected by the Placement Bureau and made available only to employers. During recent years the Bureau has experienced little difficulty in placing graduates.

THE SCHOOL OF HOME ECONOMICS FACULTY

PROFESSOR ACKERLEY, *Director.*

ASSOCIATE PROFESSORS BLAZEK, EDDY, HADLEY; ASSISTANT PROFESSORS BICKHAM, COYLE, TOUCHSTONE; INSTRUCTORS HEAP, KEMP, LE-BRON, McCORMACK, NYBECK, THOMPSON; ASSISTANT SUPERVISORS HAYLEY, PATE, SIMPSON; FIELD WORKERS IN PARENT EDUCATION, BICKLER, PALMER.

The School of Home Economics offers three major curricula which may be adjusted to prepare a student to enter vocational home economics education, institution economics, and retail economics.

In the vocational home economics education curriculum, which has been approved by the State Department of Education, each student is required to have a major home project, planned and reported under faculty supervision. Students satisfactorily completing this curriculum are qualified to teach vocational home economics in the high schools of Alabama. Since 1932, vocational certificates have been issued to students completing this curriculum who, in addition, have done a minimum of six weeks of directed teaching in an approved high school vocational class and submitted a record of two years of approved home-making experience. This home-making experience may be secured in short periods throughout the year, such as during vacations.

A student who does not meet the requirements of vocational experience may qualify for a Secondary Professional Class B Certificate by taking the necessary courses in Education. This certificate entitles the holder to teach general home economics and any other subject in which she has twelve semester hours of college credit.

The institution economics curriculum prepares for dietetic training in hospitals, recognized by the American Dietetic Association, in which the term of training varies from nine months to one year. This curriculum also provides training in food administration work in colleges, school lunchrooms, commercial cafeterias, tearooms, and club houses. Supervised experience is provided through the college food department and the Montevallo public school lunchroom. By careful choice of electives, conducting a major home project, and attendance at one summer school session after meeting the requirements of this curriculum, a student may also meet the requirements of the vocational home economics education curriculum.

The retail economics curriculum offers training for those interested in department store opportunities. The personnel of progressive department stores includes sales people, shoppers, buyers, assistant buyers, and stylists. This curriculum offers courses that give the necessary back-

ground for this work and also provides supervised experience in a leading department store. Only a selected number of those with a major in home economics are permitted to enroll in this curriculum, which also provides fundamental training for costume designing and interior decoration. By careful choice of electives, conducting a major home project, and attendance at one summer school session after meeting the requirements of this curriculum, a student may also meet the requirements of the vocational home economics education curriculum.

Other vocational fields open to home economics trained women, as provided by the curricula of the College, include cooperative extension, social service, commercial home economics demonstration, and home economics journalism.

The Nursery School furnishes college students and parents of the nursery school children opportunity for observing the interests and responses of little children in their various activities as well as for assisting in the nursery school program.

Closely related to this program in child development is the State-wide Parent Education Program which is carried on in cooperation with the State Department of Education. Two full-time field workers in parent education are engaged in conducting parent education classes in selected communities of the state.

MISS JACKSON

THE SCHOOL OF MUSIC FACULTY

PROFESSOR LEBARON, *Director*

PROFESSOR ZIOLKOWSKI; ASSOCIATE PROFESSORS CHAMBERLIN, FARRAH, KILDEA, WINER; ASSISTANT PROFESSOR STROM.

The School of Music is a member of the National Association of Schools of Music, and the requirements for entrance and for graduation conform to the regulations of that association. The general requirements for admission to the School of Music are the same as the requirements for admission to the College.

ORGANIZATION OF CURRICULA

The curricula in music are organized for professional training under the Bachelor of Music degree, and for cultural training only under the Bachelor of Arts degree.

The first two years of all curricula leading to the Bachelor of Music degree are the same, and the decision as to the field of concentration need not be made until the end of the sophomore year.

THE BACHELOR OF ARTS DEGREE

Students taking work toward the Bachelor of Arts degree may major in composition, organ, piano, violin or voice but not in school music. Not more than twenty semester hours of applied music may be taken, and a stated minimum of theoretical work must be completed. This curriculum does not lead to a certificate to teach music in the schools of the state. The degree is awarded on the completion of the subjects in the curriculum as outlined with the other Bachelor of Arts curricula, and may be found on page 56 of this catalog.

THE BACHELOR OF MUSIC DEGREE

The Bachelor of Music degree is awarded on completion of the general theoretical and academic requirements with a major in which the required degree of advancement in applied music has been met.

The curricula leading to the Bachelor of Music degree are outlined on pages 113 to 117 of this catalog. Students may major in composition, organ, piano, violin, voice, or school music. The first two years of each of these curricula are the same and are devoted to the basic essentials in music.

Students who major in applied music may prepare either for solo performance or for teaching, but performance in the major subject must be of the same degree of advancement for both solo majors and those preparing to teach, and performance in minor subjects must reach a specified standard. The teacher-training curricula in piano, violin and voice are designed to anticipate the needs of beginning teachers.

The major in School Music is designed to approach all phases of music as they are presented in both the elementary and secondary school. Piano and voice must be pursued with the major emphasis depending upon the needs of the individual student.

SPECIAL ENTRANCE STANDARDS

The candidate for admission to freshman standing in music must meet specific entrance requirements. The student failing to meet these standards will be classified tentatively as a freshman, but if upon examination by a faculty board of examiners at the end of the first year she has not removed successfully the deficiency and fulfilled the curriculum requirements of the year she cannot be ranked unconditionally as a sophomore. In such a case the student should remove the deficiency by attending a summer session. The faculty committee will act in an advisory capacity during the sophomore year and final classification will be withheld until the end of that year.

Specific entrance requirements are as follows:

Organ: The student who expects to qualify for the State Teacher's Certificate must pass Examination IV in piano before starting organ.

Piano: She should play all major and minor scales correctly in moderate tempo, also broken chords in octave position in all keys. She should have studied some of the standard etudes, such as Czerny, Op. 299, Book I; Heller, Op. 47 and 46 (according to the individual needs of the pupil); Bach, Little Preludes; a few Bach two-part Inventions and compositions corresponding in difficulty to:

Haydn, Sonata No. II, G major No. 20 (Schirmer)

Mozart, Sonata C major No. 3, F major No. 13 (Schirmer)

Beethoven, Variations on Nel cor Piu, Sonata Op. 49, No. I

Schubert, Impromptu Op. 142, No. 2, etc.

Violin: The student should have an elementary knowledge of the piano-forte. She should have the ability to perform etudes of the difficulty of the Kreutzer Etudes, Nos. 1 to 32, and works of the difficulty of the Viotti Concerts, No. 23, the de Beriot concertos, Nos. 7 and 9, and the Tartini G minor sonata.

Voice: The student must have accurate sense of pitch and musical intelligence. Previous study is not a prerequisite. If she does not have some knowledge of piano this deficiency must be removed.

REQUIREMENTS FOR GRADUATION

The Bachelor of Music degree is conferred upon all students who successfully complete the requirements as outlined in a curriculum. The curricula, in the fields offered, are so planned as to permit the student to complete the requirements during four years. In cases of irregularity the deficiency can usually be removed by work done in summer session.

Theoretical Subjects

In theoretical subjects the student must reach the required degrees of advancement in the regular prescribed courses.

Composition. The student taking Composition 401-402 with its prerequisites and demonstrating a performing musicianship of senior ad-

vancement is considered as having a major in composition. A second instrument or voice may be studied, dividing the time assigned to applied music.

Applied Music

Organ. The candidate for graduation in organ should have acquired the ability to read moderately difficult anthem accompaniments at sight. She should have demonstrated her ability to play a church service including solo accompaniment. Her repertory should include examples of classic and modern writing. She should have laid the foundation for transposition at sight, open score reading and improvisation.

Piano. The candidate for graduation in piano must have passed the prescribed technical examination in scales, arpeggios, chords, octaves, and double notes. She must have a repertory comprising the principal classic, romantic and modern compositions which should include such works as:

Bach, Chromatic Fantasia and Fugue, Tausig, Liszt, D'Albert

Beethoven, sonatas and a concerto

Brahms, Rhapsodie B minor, Sonata F minor

Chopin, ballades, polonaises, fantasies, barcaroles, scherzi, etudes, preludes, and a concerto

Liszt, rhapsodies, transcriptions, a concerto

Schumann, Sonata G minor, Faschings-Schwank, Carnival, Concerto

Compositions by standard American and foreign modern composers.

Violin. The candidate for graduation in violin should show an adequate technical grounding in scales, arpeggios, bowing, and phrasing, and the ability to perform works of the difficulty of the Mendelssohn's E minor concerto, and the Bruch G minor or Spohr No. 8. During the four-year course the student must have at least two years of practical orchestral experience and two years of ensemble. She must have studied the viola sufficiently to enable her to play it in ensemble. She should further demonstrate ability to do sight reading and should be able to sight read simple piano accompaniments. An examination in piano sight reading is required in the sophomore year and if the necessary ability is not evident piano study is required.

Voice. The candidate for graduation should demonstrate the ability to sing the more difficult arias of opera and oratorio in English and in two foreign languages, a knowledge of recitative in both the free and measured forms, a knowledge of the general song literature, and the ability to give a creditable recital. The repertory for immediate use should consist of at least four operatic arias, four oratorio arias, twenty classic and twenty standard modern songs. The voice major must have two years' experience in ensemble singing and have completed sufficient piano study to enable her to play accompaniments of average difficulty. An examination in piano sight reading is required in the sophomore year, and if the necessary ability is not evident piano study is required.

School Music. The candidate for graduation in school music must meet certain standards of achievement in piano, voice and wind and string pedagogy. Emphasis in assigning applied music hours will be determined by the student's needs and aptitudes. Examination IV in piano is required, and Examination IV in voice approximates requirements in that field.

EXAMINATIONS

A comprehensive examination before the faculty committee is required at the end of the sophomore year

- (1) To determine whether students in the Bachelor of Music curricula have reached the sophomore level.
- (2) To aid in choosing the field of concentration for which students are best qualified.

The technical part of the examination is first heard by the recorder, who certifies the student to be ready for the faculty committee. The first examination is with the recorder and teacher; all others are with the faculty committee or staff.

SCHEDULE OF WORK

The normal amount of work each semester for a student is seventeen hours, including one hour of physical education. The minimum requirements for four years are 128 semester hours plus eight hours of physical education. A student taking more than seventeen hours must have the approval of the Director and the Dean of the College.

RECITAL

A full recital is required of all students with a solo major in instrumental and vocal subjects. Students with a major in composition, while meeting the same applied music standards as do those with a major in instrumental subjects, are not required to prepare graduate recitals but must submit a composition of senior standing ready to be performed in public recital.

The curriculum for training teachers in piano does not necessarily require a full public recital, but the record must show an established minimum of public work; that is, one public performance in the freshman year, two in the sophomore year, three in the junior year, and four in the senior year. Attendance at the recital class is required of all students with a major in music.

STATE TEACHERS' CERTIFICATE

Students desiring a state teachers' certificate in any applied subject except voice must meet the minimum requirement of the sophomore examination in the subject in which certification is desired. Those desiring a certificate to teach voice must show four years of voice study and must have completed Diction 301 and 302.
